**Distributed to** Ministry of Health, Public Health System, NSW Ambulance Service

**Audience** Administration and records
GENERAL RETENTION AND DISPOSAL AUTHORITY: PATIENT RECORDS (GDA17) AND ADMINISTRATIVE RECORDS (GDA21)

PURPOSE
The Board of the State Archives and Records Authority NSW has approved a revised General retention and disposal authority: Public health services - patient records (GDA17), and made a minor change to General retention and disposal authority: Public health services - administrative records (GDA 21) in line with the approval of the Functional retention and disposal authority: Provision and regulation of childcare services (FA404).

KEY INFORMATION
1. General retention and disposal authority: Public health services - patient records (GDA17)

GDA17 applies to the records of patient care provided by the NSW Health system. The authority underwent a review and was revised on 30 May 2019.

The disposal action for certain patient records has been changed as a result of the review. NSW State Archives and Records website has available the current version of GDA17 and a schedule of amendments and justifications to show where the retention periods have changed. Where they have changed the old entries in GDA17 can no longer be used as the source of legal authority for the disposal of records under the State Records Act 1998.

2. General retention and disposal authority: Public health services - administrative records (GDA 21)

GDA21 applies to records created and maintained to support the management and delivery of public health care services and programs. It was amended on 30 May 2019 to remove classes covered by FA404, Provision and regulation of childcare services. Those sections of GDA21 relating to childcare can no longer be used as the source of legal authority for the disposal of records under the State Records Act 1998.

FA404 applies to the provision of childcare services by NSW public offices including the local health districts.

Refer to the NSW State Archives and Records website for the latest version of both GDA21 and FA404.
